Carriwell Seamless Padded Nursing Bra

Designed in Denmark and inspired by the award winning Carriwell Seamless Nursing bra; this padded; t-shirt style bra, has all the attributes of the seamless nursing bra with the added convenience of removable foam cups. Staying with our core Carriwell design principles; we have created this bra for moms looking for added support and shape, without compromising the core elements of a great nursing bra i.e. comfort, style, quality, fit and function. Maximum skin-to-skin contact between mom and baby whilst nursing has again been the focal point of design in this bra.

RATING: ★★★★★

REVIEW: These were wonderful! I ordered three and plan to order more. They come with an extender too! Very comfortable and very supportive!
